

The 25th IEEE Intersociety Conference on Thermal and Thermomechanical Phenomena in Electronic Systems

JW Marriott Orlando - Grande Lakes, Orlando, FL, May 26 – 29, 2026

Tour of CoreSite - Orlando

Registration Link: [Click Here](#)
Deadline: **May 15th, 2026**

ITherm is pleased to announce that we will be offering a tour of **CoreSite Orlando** during the ITherm conference.

This tour requires pre-registration and a small fee to cover transportation to and from the JW Marriott Grande Lakes hotel. Visitors will only be accommodated as part of the ITherm tour group.

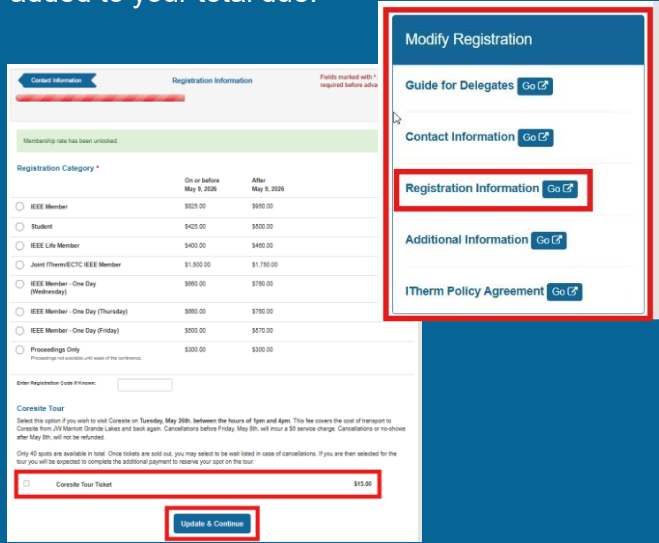

Tour spots are limited, and we encourage you to register and pay for the tour as soon as possible. Once all spots are taken, you will be waitlisted and added in case of cancellations.

To purchase the ticket, go to your attendee registration portal (link above), click-through until you reach the **Registration Information** screen. If you've already registered and paid then click on the **Registration Information** button under the **Modify Registration** panel on the right. Then click on the **check-box** for the tour ticket and hit **Update & Continue**.

If you have already paid your registration in the past, you only need to pay for the extra tour fee. If this is your first time registering, the fee is added to your total due.

Tour Details:

- Host: **Coresite Orlando**
- Tour date: **Tuesday, May 26th, 2026**
- Tour time: **1 PM to 4 PM**
- Tour fee: **\$15 per person**
- Transport: **Provided by ITherm to-and-from JW Marriott Grande Lakes**
- Cancellation: **Until May 15: \$10 refund**
After May 16: no refund
If tour is cancelled, full refund will be issued

The Intersection of Interconnection

Increasingly complex digital business demands require infrastructure performance and flexibility. We deliver purpose-built data centers and a highly interconnected ecosystem that holistically ensures you can optimize customer experience, scale on-demand and grow your business.

INCREASING REVENUE, DECREASING COSTS

Our enterprise customers increase revenue by interconnecting to our digital ecosystem, creating greater value for their customers and partners, inspiring brand loyalty and expanding market reach.

Digital platform and managed services providers recognize the immense potential to add value to, and attract more businesses into, digital ecosystems. Our network-dense, scalable and cloud-connected data centers provide an "intersection of interconnection" for you and your customers.

SIMPLIFYING INTERCONNECTION, DATA CENTER MANAGEMENT

THE OUTCOMES

MONETIZE YOUR BUSINESS

Our Open Cloud Exchange® (OCX) enables collaboration with all the partners in your digital ecosystem. Our proprietary platform provides direct, secure and virtual connections to anyone on the exchange – enabling businesses to quickly turn up connections, transfer content and collaborate in real-time. The OCX empowers our customers to complete unique production projects and achieve a faster time to market.

MEET STRINGENT COMPLIANCE REGULATIONS

Many businesses strive to provide excellent customer experience but are challenged by compliance regulations designed to protect customer data. CoreSite's data centers satisfy stringent compliance regulations and provide the multi-layered security features, 100% uptime service level agreement (SLA) and infrastructure resilience needed to support an excellent customer experience.

FUTURE-PROOF YOUR DIGITAL BUSINESS

Enterprises in myriad industries deploy multicloud and hybrid IT strategies at CoreSite to achieve better performance. Our agnostic approach and strategic partnerships enable customers to quickly connect to their preferred cloud providers to maximize performance and take advantage of the latest cloud application or workload.

“When we joined CoreSite, everyone laid down the red carpet in the pre-sales stage – and the red carpet stayed down since we have become customers. Our experience continues to be phenomenal.”

PRINCIPAL NETWORK ENGINEER AT A FEDERAL CREDIT UNION

WHY CORESITE?

We are building the digital infrastructure for tomorrow, today, as a subsidiary of American Tower. The combined assets of the companies – CoreSite's data centers, decades of operational experience and unique interconnection platform and American Tower's domestic and international real estate portfolio – establishes a differentiated foundation for building the interconnection fabric of the future and accelerating wireline and wireless convergence. Additional reasons are rooted in our demonstrated ability to deliver a significant return on investment:

- **Save up to 60%** on CoreSite cloud connectivity compared to traditional telco and SDN offerings*
- **Save up to 50%** by connecting to 435+ network service providers at CoreSite*
- **Cut data replication costs by as much as 70%** using direct interconnection and eliminate data egress costs when restoring data from certain local cloud availability zones*

NATIVE ONRAMPS TO ALL MAJOR CLOUD PROVIDERS

Microsoft Azure

*Costs savings are based on CoreSite cost comparisons using publicly available and private information and/or CoreSite customer reported costs savings and may not be indicative of the costs savings that may be experienced by every customer that switches to the applicable CoreSite service.
